

# EASD Report on activities 2021-2022

**Environmental Ambassadors for Sustainable Development (Environmental Ambassadors, EASD)** is a non-for-profit professional association focusing work on education, as well as the research and science (professional and participant science/citizen science) promotion, in the areas of sustainable development and environment, through the consultancy, expertise, innovation, capacity building, evidence-based advocacy, promotion of natural and culture values, equality and justice. <http://ambassadors-env.com/en/> .

**Implements activities globally, in the region of South Eastern Europe and nationally (Serbia). Focus thematic issues are:** — Sustainable Development Goals; — Education for sustainable development; — Sustainable Production and Consumption; — Science (Research and Citizen science and science promotion); — Nature and biodiversity; — Waste and chemicals, and — other working areas (Climate change issues, Sustainable tourism, Sustainable fashion and textile, Policy and governance, Resource efficiency, Plastic pollution, Circular economy, Water and sanitation, Air pollution, Eco-labeling, Energy-Environment nexus, Environmental rights and justice and security, EU accession and enlargement, Gender issues, Culture and art, Food and nutrition). We are “bridging” global and European scale environmental/climate change/ sustainable development issues in focus with sub-regional South Eastern Europe challenges, and vice versa. We are “walking through actions” thematic issues of concern, like waste and chemicals, biodiversity, climate change, circular economy concept, SDGs in practice.

We are independent group of professionals, i.e. experts at different level of carrier in various fields. EASD has special consultative status in UN ECOSOC; accredited in United Nations – UNEP (UNEP Governing Council/Global Ministerial Environment Forum); Strategic Approach to International Chemicals Management (SAICM) NGO Focal Point; National Member of The Foundation for Environmental Education – FEE Serbia; Institutional Member of ACUNS – Academic Council on the United Nations System; IPEN network Participating Organization; European Environment Bureau Member– EEB, ECSA – European Citizen Science Association Member, Women Engaged in Common Future (WECF) member; Associate Member to ESDN Association. Projects we implement are available at <http://ambassadors-env.com/en/project/> .

---

*Note: We are pleased to inform you that the Economic and Social Council (ECOSOC) of the United Nations at its substantive session, held on 18 June 2020, decided to take note of Environmental Ambassadors for Sustainable Development’s recent quadrennial report (20015-2018). Quadrennial report particularly highlighting EASD contribution to the work of the United Nations, including the Sustainable Development Goals and other internationally agreed goals.*

---

**Some more facts about organization:**

Organization is established in 2004 as association of citizens, and formally registered as association of professionals in 2012. At the end of 2022 legal representative remains **Aleksandra Mladenovic**, as the President. Organization is led by women. Council president (in kind): **Danko Aleksic**, from 2019.

Role model is Prof dr Andjelka Mihajlov, Honorable president and former Serbian Minister for Natural Resources and Environment.

Staff: projects based (in the last few years vary from 1 to 6 – full time, and 2-9 part time).

Co-founders: Andjelka Mihajlov, Sandra Radunovic, Hristina Stevanovic-Carapina, Ana Pudja, Filip Jovanovic and Milica Petrovic

Honorable Members are: Sandra Radunovic, Hristina Stevanovic-Carapina, Ana Pudja, Filip Jovanovic, Milica Petrovic, Danko Aleksic, Natasa Zugic Drakulic, Predrag Simonovic, Zora Dajic Stevanovic, Petar Marinkovic, Milena Tabasevic, Uros Rakic and Milica Momcilovic.

Forum of Members have about 50 members, and Forum of Friends have more than 1000 members. Network of the Partners include about 50 institutions. EASD is coordinating-facilitating network of 148 Eco-Schools in Serbia.

**Main activities in 2021 and 2022 include:**

Activity		EASD Thematic focus	FEE Thematic focus
<p><b>Adaptation of the innovative interactive learning toolkit on climate change – the Climate Box, 2020-2021</b>            During 2013-2015, UNDP developed and piloted in Russia a new innovative interactive learning toolkit on Climate Change –“ Climate Box”. The toolkit was developed by an interdisciplinary team of Russian experts including climatologists, geographers, biologists, economists, environmental experts, teachers and methodologists, and launched on UNFCCC 21st Conference of Parties (in Paris, 2015). Since 2016, the toolkit has been adapted, translated into national languages and piloted in 7 other countries of Eastern Europe and Central Asia. Since 2020, Serbia has joined the Climate Box project. The purpose of the project is to adapt the innovative interactive learning toolkit on climate change – the Climate Box into Serbian language.  <b>UNDP supported</b>            CLIMATE BOX in Serbian language  <a href="http://ambassadors-env.com/en/2021/09/07/climate-box-is-available-in-serbian-language/">http://ambassadors-env.com/en/2021/09/07/climate-box-is-available-in-serbian-language/</a></p>	Serbia	Education for sustainable development; Climate change issues	Empower Climate Action
<p>ENV.net3: “<b>ENV-net factoring the environmental portfolio for Western Balkans and Turkey in the EU Policy Agenda</b>” – <a href="https://www.europeaid.europa.eu/en/154870/ACT/Multi">EuropeAid/154870/ACT/Multi</a> ; EASD (Serbia) partners for project implementation are: 4X4X4 Balkan Bridges from North Macedonia, European Environmental Bureau from Belgium, Advocacy Training and Resource Center, from Kosovo*, Green Home, from Montenegro, Lir Evolution, from Bosnia and Herzegovina, TEMA - the Turkish Foundation for Combating Soil Erosion, for Reforestation and Protection of Natural Habitats, from Turkey and Foundation Punto,Sud, from Italy. The project contributes to the improvement of environmental policy-making and implementation in compliance with the EU standards. To this end, the network</p>	Western Balkan+ Turkey / EU	Sustainable Production and Consumption; Citizen science and science promotion; Waste and chemicals, Climate change issues, Policy and governance, Circular economy EU accession and enlargement	Empower Climate Action Reduce Environmental Pollution

foresees to contribute to both improved and intensified inter-action among actors (including environmental CSOs, media and policy-makers) and an overall more enabling technical and financial environment where these actors operate. The action sets out to strengthen the profile of ENV.net as the leading network and bridging actor in environmental policy-influencing in the WB and Turkey region (vis-à-vis EU). Further, it foresees introducing and initiating a discussion on the Circular Economy concept in the region, as well as intensifying climate change actions. The action also foresees a number of value-adding, cross-cutting elements such as inter-partner learning/exchange, networking, and thematic organisational support to third parties (i.e. local grass-root organisations, media). Finalized in March 2021

<p><b>IPEN global plastics monitoring project 2020-2022</b></p>	Global	Chemicals, Waste Plastic pollution	Reduce Environmental Pollution

<p>The aim of the IPEN global plastics monitoring project is to raise awareness locally and globally about hazardous chemicals in recycled plastics used for consumer products. The project targeted recycled plastic pellets of high-density polyethylene (HDPE) sold from small-scale, local operations, since this is one of the most commonly used material for consumer products. These have been analyzed for UV stabilizers, Decabromodiphenyl ether (deca BDE) and PCBs.</p> <p>Publication: WIDESPREAD CHEMICAL CONTAMINATION OF RECYCLED PLASTIC PELLETS GLOBALLY, IPEN Study, EASD Contributors, Dec.2021</p> <p>More details at: <a href="http://ambassadors-env.com/en/project/ipen-global-plastics-monitoring-project/">http://ambassadors-env.com/en/project/ipen-global-plastics-monitoring-project/</a></p>			
<p><b>EU Environment Partnership Programme for Accession 2019-2022</b></p> <p>EASD is a member, participating organization in the project EU Environment Partnership Programme for Accession (EPPA) in the Western Balkans and Turkey seeks to be a major driver of reform and development in environmental governance through compliance with the EU environmental acquis (WG7). The programme builds on the results of the RENA and ECRAN programmes by furthering the regional cooperation and strengthening the administrative capacities of the beneficiaries. Regional cooperation provides the framework for sharing knowledge, expertise and good practices, and for addressing common environmental problems in a more sustainable and efficient way. The overall objective of the programme is to strengthen the implementation of the EU environmental acquis in the Western Balkans and Turkey in areas relevant for addressing trans-boundary environmental issues.</p> <p><a href="http://ambassadors-env.com/en/project/eu-environment-partnership-programme-for-accession/">http://ambassadors-env.com/en/project/eu-environment-partnership-programme-for-accession/</a></p>	EU, Western Balkan	Policy and governance, EU accession and enlargement	Protect Global Biodiversity Reduce Environmental Pollution
<p><b>Forest – our lifelong teacher (Erasmus+) , Duration of activity / project:2022-2023</b></p> <p>ForLife is a joint project of three partners: Doves, Slovenia (project leader), Jump (Italy) and Environmental Ambassadors for Sustainable Development (Serbia), under the Erasmus+ Program.</p> <p>EC Project Number: 2021-1-SI01-KA210-SCH-000031290</p> <p>National Project ID: KA210-SCH-2/21</p>	EU	Education for sustainable development; Nature and biodiversity; Climate change issues, Culture	Empower Climate Action Protect Global Biodiversity

<p>Project title: Forest – our lifelong teacher</p> <p>One of the priorities of EASD focus is education on importance of biodiversity protection, which is implemented mainly through the Eco-schools Serbia network. In the period 2017-2020, under the project The Great Plant Hunt biodiversity topic is introduced in Eco-schools Serbia network and started with implementation of the nature-based solutions concept. From February 2022, EASD started to implement within Eco-schools Serbia network an Erasmus+ project ForLife , with leading partner from Slovenia, and another partner from Italy. This project is directly connected to nature-based solution concept, by using positive examples from nature, regarding promotion of protection, restoration or management of natural and semi-natural ecosystems and in the same time creation of novel ecosystems in urban and sub-urban areas where Eco-schools belong to.</p> <p>More details at: <a href="http://ambassadors-env.com/en/project/forest-our-lifelong-teacher-erasmus/">http://ambassadors-env.com/en/project/forest-our-lifelong-teacher-erasmus/</a></p>			
<p><b>ENVIRONMENT TO EUROPE – EnE</b>, from 2005</p> <p>This project/process present different phases towards European values, as well as globally values promoted through Multilateral Environmental Agreements. Started to raise awareness of the importance of the UNECE Ministerial “Environment for Europe” Belgrade 2007 Conference, and further continuously is mobilizing interesting parties in Serbia and Region to catalyze environmental and sustainable development.</p> <p>Within “Environment to Europe” Process, EASD actively participate and organize different supporting activities in different related thematic areas, like sustainable consumption and production, efficient resource use, chemicals, eco-consumers protection, participation at global, EC, regional and with papers at different conferences, etc. Regional cohesion projects supported Environment to Europe process.</p> <p>In more details at: <a href="http://ambassadors-env.com/en/project/environment-to-europe-ene/">http://ambassadors-env.com/en/project/environment-to-europe-ene/</a></p>	Serbia, South East European Region	Education for sustainable development; Science (Research and Citizen science and science promotion); EU accession and enlargement	Empower Climate Action Protect Global Biodiversity Reduce Environmental Pollution
<p><b>Eco-Schools</b>, from 2013</p> <p>Global wide criteria for Eco-schools are implementing in Serbian schools.</p>	Serbia	Education for sustainable development;	Empower Climate Action Protect Global Biodiversity

<p>Project is acknowledged by Ministry of education, science and technological development.</p> <p>National operator in Serbia is EASD, facilitating national Eco-Schools network. The total number of Eco-schools in Serbia in 2022 is 148 educational institutions from all levels.</p> <p><a href="http://ambassadors-env.com/project/eko-skole-otvoren-poziv-skolama-da-se-prijave/">http://ambassadors-env.com/project/eko-skole-otvoren-poziv-skolama-da-se-prijave/</a> ; <a href="http://ambassadors-env.com/en/project/eco-schools-call-for-schools-to-participate/">http://ambassadors-env.com/en/project/eco-schools-call-for-schools-to-participate/</a> ; <a href="http://ambassadors-env.com/en/project/eco-schools-steps/">http://ambassadors-env.com/en/project/eco-schools-steps/</a></p>			Reduce Environmental Pollution
<p><b>Blue Flag</b>, from 2011</p> <p>The iconic Blue Flag is one of the world’s most recognized voluntary eco-labels awarded to beaches, marinas, and sustainable boating tourism operators. In order to qualify for the Blue Flag, a series of stringent environmental, educational, safety, and accessibility criteria must be met and maintained. National operator in Serbia is EASD.</p> <p>More at: <a href="http://ambassadors-env.com/en/project/blue-flag-open-call-for-beaches-and-marines-for-2013/">http://ambassadors-env.com/en/project/blue-flag-open-call-for-beaches-and-marines-for-2013/</a></p>	Serbia	Sustainable Development Goals; Education for sustainable development; Sustainable tourism, Eco-labeling Culture	Empower Climate Action Protect Global Biodiversity Reduce Environmental Pollution
<p><b>Green Key</b>, from 2013</p> <p>Green Key is presently the largest global eco-label for accommodation and has a national administration center (in Serbia this is organization “Environmental Ambassadors for Sustainable Development”) in each participating country. The total number of Green Key (GK) certified hotels in Serbia in 2022 is two: IN hotel in Belgrade and Hotel Rtanj at Kopaonik Mt.</p> <p>Green Key is an independent Programme recognized and supported by the World Tourism Organization and UNEP.</p> <p>More at: <a href="http://ambassadors-env.com/en/project/green-key/">http://ambassadors-env.com/en/project/green-key/</a></p>	Serbia	Education for sustainable development; Sustainable Production and Consumption; Eco-labeling Culture Food and nutrition	Empower Climate Action Protect Global Biodiversity Reduce Environmental Pollution
<b>Additional UN/global scale activities</b>			
<p><b>Environmental Ambassadors for Sustainable Development (EASD) started in 2020 with more focused engagement and activities in the thematic issue of plastic pollution.</b></p> <p><b>We found important UNEP initiative to beat plastic pollution, as well as designing out plastic pollution.</b></p> <p><b>EASD started with analysis, participation in global studies and relevant national/local surveys and initiatives related plastic in products and in waste.</b></p> <p><b>EASD activities include activities in: Science and Research (for better Governance and regulation) – A circular economy for plastic, Education and</b></p>			

learning against plastic pollution, Promotion of sustainable travel against plastic pollution, Promotion of clean beach against plastic pollution, as well as Processes towards global plastic treaty and EU accession, participation and monitoring.

## Selected activities in pictures

With a **year in review - 2021 & 2022**, EASD is **looking at the next period with a new challenge** - entering into as a Partner in the Horizon project augMentor (Horizon Europe is the EU's key funding program for research and innovation). EASD, as a professional organization, is determined to continue its activities in the field of education, research, analysis and scientific communication, related to the environment, climate change and sustainable development.

Prepared in April 2022, and undated on December 25, 2022
