

Needs for Tailored Knowledge and Skill-Based Education for Sustainable Development: Balkan Environment Life Leadership Standards Courses

Mihajlov Andjelka

01/2012; ISBN: 978-3-631-62560-6 In book: **Sustainable Development at Universities: New Horizons**, Publisher: **Peter Lang Scientific Publishers, Frankfurt am Main, Berlin, Bern, Brussels, New York, Oxford, Vienna**

ABSTRACT This book, prepared in the context of the UN Conference on Sustainable Development (UNCSD), also known as Rio+20, contains the papers submitted to the World Symposium on Sustainable Development at Universities (WSSD-U-2012), which took place in Rio de Janeiro, Brazil on 5 and 6 June 2012. It pursues the following main aims: to document and disseminate experiences from universities all round the world regarding education for sustainable development; to foster the exchange of information, ideas and experiences acquired in the execution of projects; and to introduce methodological approaches and projects which aim to integrate the topic of sustainable development in the curriculum of universities. Last but not least, a further aim is to document and disseminate the wealth of experiences available today, providing a truly global coverage. With over 70 chapters and a truly global coverage, Sustainable Development at Universities: New Horizons is among the most comprehensive publications on sustainability in higher education ever produced. It is meant to go beyond a description of the current state of knowledge, and shall open the way for new thinking and new horizons in what is a rapidly expanding field, of central interest to both industrialized and developing countries.
